

## First Bulletin – Alan Astbury Memorial Symposium

We are pleased to announce that the Alan Astbury Memorial Symposium will be held at the University of Victoria on April 27-28 this year. This two-day meeting will focus on Alan's professional interests during his career. Topics will include physics at the high-energy frontier, and the production of isotopes for nuclear physics and medicine. Dr. Rolf Heuer, CERN Director General, will present the inaugural Astbury Lecture, a public talk on the night of April 27th.

Full details are available on the webpage below, which will be regularly updated. Please note the links for registration, and recommended accommodation options.
