

ISAC Science Forum:

**Wednesday, August 14, 2013 at 15:15
in the ISAC II Conference Room**

Agenda:

* Peter Bender

S1389, Shape coexistence at $N=60$; single-particle structure in $^{95,96}\text{Sr}$ (this is the first experiment with high-mass ISAC II beams)

* Thomas Procter

S1010 Laser spectroscopy in neutron-deficient francium isotopes and S1341 Laser spectroscopy on neutron rich Rb isotopes
