

## Obituary - Gail Nelson

Gail Nelson passed away on February 11th, 2016.

While Gail was not an employee of TRIUMF, she was a valued family member of the institute and the spouse of Jack Nelson, whose name is attached to many of the control systems at TRIUMF.

Gail with her husband Jack and their children organized and helped out with many recreational activities for hundreds of TRIUMF employees. These included annual golf and bowling tournaments as well as curling bonspiels. Gail helped with sign-ups, score-keeping, food and drinks. Always a friendly face with the answer to any question. She will be missed by many.
